

Company Name:	Aetna Life
NAIC Code:	60054
SERFF Tracking #:	AETN-133663550
Market Segment:	Individual

1. Use this Exhibit for both individual and Small Group Plans. A separate Exhibit should be provided for Individual and Small Group filings.
2. Member segment refers to individual (which includes Catastrophe) or Small Group.
3. The requested percentage rate change reflects the expected change in premium rates that would apply to the contract holder (or member for Small Group business) on that contract holder's next rate change date for each contract holder within the indicated combination of metal level, rating region, and product name.
4. The "Product/Street Name" is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/metal level when communicating with DFS). A separate row is to be used for each combination of metal level, rating region, and product name.
5. The effective date is the earliest date that the proposed new rate would become effective if approved. The Effective Date for Individual is 1/1/2024. Effective Dates for Small Groups are 1/1/2024, 4/1/2024 and 10/1/2024.
6. The percentage changes for new and highest and neighborhood averages are identical for all the products in a rating region. The "Neighborhood Average" can be shown in the Rating Region column. If the rate change range information differs by rating region, then separate rows need to be used for each rating region in the rating region.
7. Insurer uses. Rating region names used on this exhibit are to use the standard rating region names developed by DFS (i.e., Albany Area, Buffalo Area, etc.).
8. The "requested rate change" indicates the expected any riders (i.e., age 20, domestic partner, family planning, etc.) that would be applied to the contract holder. "Lower" should be used for the smallest percentage change that could affect any contract holder due to the submitted rate filing with metal level and rating region, including any applicable riders.
9. "Higher" should be the largest percentage change that could affect any contract holder due to the submitted rate filing with metal level and rating region, including any applicable riders.
10. The weighted average percentage should be the average percentage of annual premium volume or membership for that metal level, and rating region, including any applicable riders.
11. Percentage Rate Changes should be calculated using memberships as of 3/31/2023.
12. This exhibit must be submitted as an Excel file and as a PDF file.
13. The Total Annualized Premium in C-4 of this Exhibit should equal the total in C-4 of Exhibit 13c.
14. The Total Number of Members and Subscribers in C-4s H-24 and I-24 of this Exhibit should equal the totals in C-4s Q-4 of Exhibit 13c and C-4s Q-43 of Exhibit 13c-Supplement respectively (i.e., Only those members/subscribers currently enrolled in plans that will continue to be offered in 2024).
